EXPERIENCE

GE Aviation. **Staff UX Designer**. Nov 2018 – now

CODEBEAT. **Product Owner**. June 2017 – Aug 2018
After a year of being fully absorbed with the team management, I decided to move back to actual product work. I decided to join a SAAS app to take part in building a product base on fast feedback loops
- Building and managing product backlog
- Delivering wireframes and mockups together with full development specification
- In-depth Interviews and user testing with key clients. Prototyping new features and improvements

10CLOUDS. **Head of User Experience**. Feb 2017 – May 2017
As the design team grows it was split into two: Visual and UX
- Running design workshops. Building UX understanding and providing UX mentoring
- Management of the UX team. Assigning designers to the client and internal projects.

10CLOUDS. **Head Of Design / Senior UX Designer**. Feb 2015 – Jan 2017
As a most senior designer in the company I was asked to create a design team
- UX and Visual designers recruitment. Assembling the team of eleven designers from the ground up
- Managing the in-house design process and kick-start phase for all new client projects
- Requirements gathering and creation of design specification (mockups, user stories, and app flow)

10CLOUDS. **Senior UX Designer**. Jan 2010 – Jan 2015
- Requirements gathering and creation of design specification (mockups, user stories, and app flow)
- Managing the scope of the projects
- Building in-house understanding of Agile and Scrum methodology and key role in Project Managers and Front-end developers recruitment

ATSA DESIGN + UX. **Owner**. Sep 2006 – Jan 2011
- Front-end, visual design, HTML/CSS and Python/Django development
